The iPad has changed my life. I could never have imagined a year ago that I would be using an iPad every day and talking about it in print and on-line. I love the way it has changed how I work and how I interact with my students. I love the way it feels in my hand and the ease with which I can get things done. If you want to know more about what an iPad can do for you, here are 20 reasons why I love my iPad: 1. I can get to all of my papers and books I used to have three or four desktop computers at home (one computer, one printer, one scanner), but because I use an iPad, I can now access every paper I have ever worked on, every piece of reading I have done, every website I visit, every document I own, every book I have ever read or am planning to read, every presentation I have ever prepared, every photo I have ever taken, every picture I have ever created, every video I have ever watched, every song I have ever listened to, every song I have written, every poem I have ever read, every poem I have ever written, every test I have ever taken, every online service I have ever
